Opulent yet sober at the same time, the OUSE defines the term of new contemporary decadence. Thanks to its uniquely designed infinity diffuser, the OUSE is a perfect ring of illumination. The flawless clean look is achieved from any angle, gracefully radiating diffuse light throughout a space.

If you decide to take things even further, hide the remote driver and the ceiling rose behind the plasterboard and create the perfect illusion of minimalist halo ring. With no exposed elements, the OUSE looks perfect from any angle, making it a popular choice for atriums and large staircases with viewing galleries. By simply adjusting the length of the suspension, the OUSE is inviting the designer to play and create unique dimensional objects.
